

ONE WORD (STRAIGHT TO THE HEART)

From Album Into The Light / The Millennium Collection . By Chris de Burgh . Written by Chris de Burgh

One word, one heart, one night, is all I want,
One word, one heart, one girl, is waiting there for me,

Midnight, and all is well,
I hear the mission bell,
Out on the road, nothing is moving,
As I speed from town to town,

Two hearts are beating fast,
But they are still many miles apart,
Oh the mood was shining on a distant shore,
Burning like a fire in my heart,
I've got to see her, I've got to say,

One word, one heart, one night, is all I want,
One word, one heart, one girl, is waiting there for me,
I never knew I cared so much before,
I've got to tell her tonight - straight to the heart,
I'm going to tell her tonight - straight to the heart,
I've got to tell her tonight - straight to the heart,
Like a cannonball...

Headlights are blazing through,
Turn on the radio, I hear the news,
Hand on the wheel, foot on the floor,
And on, and on, and on we go,
This car is like a friend,
Bring her the message that I want to send,
Oh the dawn was breaking and I saw the sun,
Burning like a fire on the bay;
I'm nearly there now, I'm gonna say –

ONE WORD (STRAIGHT TO THE HEART)

From Album Into The Light / Star Boulevard (The Best) . By Chris de Burgh . Written by Chris de Burgh

One word, one heart, one night, is all I want,
One word, one heart, one girl, is waiting there for me,
I never knew I cared so much before,
I've got to tell her tonight - straight to the heart,
I've got to tell her tonight - straight to the heart,
I've got to tell her tonight - straight to the heart,
Like a cannonball...

One word, (yes), one heart,
One night, (yes), one girl, (yes),
I've got to tell her tonight - straight to the heart,
I've got to tell her tonight - straight to the heart,
I've got to give her my love - straight to the heart,
I've got to give her my love - straight to the heart,
I've got to tell her myself - straight to the heart,
I've got to tell her tonight - straight to the heart
Like a cannonball...
