

# WHEN I SEE YOU TONIGHT

*From Album This Silent World . By Chris de Burgh . Written by Chris de Burgh*

Can I see you tonight? Can we go for a ride?  
Or watch TV - get a video out?  
I've heard of one that I'd like you to see,  
It's called the Field Of Dreams, goin' by the way:  
Just want to say that I love you,  
Just want to say that I love you.

Can I see you tonight? can we talk about life?  
And how the world keeps spinning around  
And just when I and the moon and the stars  
And the light of your heart  
I'd really do it all away  
And I wanna tell you I love you  
Just want to tell you I love you

Oh why do people always say  
The things they never mean?  
I know that we could start again,  
If you listen to me!

Can I see you tonight? It's gonna be alright.  
You are the best thing that's happened to me  
A million words could never reveal the way you  
Make me feel every moment of my life  
If got to tell you I love you  
Just got to tell you I love you.

Oh why do people always say,  
The things they never mean?  
I know that we could start again,  
If you listen to me!

Can I see you tonight? Can we go for a ride?  
Or watch TV - get a video out  
I've heard of one that I'd like you to see,  
It's called the Field Of Dreams, goin' by the way:  
Just want to tell you I love you (can I see you tonight?)  
Just want to tell you I love you (can I see you tonight?)  
Just got to say that I love you.
